

July 7, 2016

8:30 a.m. to 3:30 p.m. (CDT)

**GRREC** is pleased to offer **Google More Than A Search Engine**. This is a professional learning experience design for the teacher just beginning to explore the use of Google Apps for Educators. The learning focuses on big ideas about applying Google's suite of free tools to transform teaching and learning. This high energy and hands on workshop will explore Google Docs, Spreadsheets, Slides, Forms, YouTube in the Classroom, Chrome and more!

With a wealth of learning and productivity tools available online, some may ask, **Why Google?** Google offers some of the highest-quality resources on the web to meet many of your teaching and learning needs, and all you need to access them is an Internet connection. In addition, 73% of Kentucky schools implemented GAFE in their districts as of the 2015-2016 school year.

Join us for a great day of learning, collaborating and networking with educators from across the GRREC region. **This is a hands-on bring your own laptop workshop.** Google Apps work best on laptops and Chromebooks. iPads and other tablet devices are not recommended for this particular workshop.

**Bring Your Own Device (Chromebook or laptops recommended)**

**PGES Connections****Domain 1: Planning & Preparation****1E - Designing Coherent Instruction**
